THINK TANK ECONOMIE SANTE 2022 In PARIS

PRESENTATION OF ANNUAL RECOMMENDATION

PARIS, 04.04.2022, 07:54 Time

USPA NEWS - A Strong Relationship between the Doctor and Patient will lead to Frequent, Quality Information about the Patient's Disease and Better Health Care for the Patient and their Family. Enhancing the Accuracy of the Diagnosis and increasing the Patient's Knowledge about the Disease all come with a Good Relationship between the Doctor and the Patient. Where such a Relationship is Poor the Physician's Ability to make a Full Assessment is compromised and the Patient is more likely to distrust the Diagnosis and Proposed Treatment, causing Decreased Compliance to actually follow the Medical Advice which results in Bad Health Outcomes.
